

Patient Participation Group

Have you got a couple of hours free once every Quarter to meet up with a Doctor and some of the Practice staff, to help develop and work on improvements to the service we offer you?

We are currently looking for some additional people to join our friendly Patient Participation Group.

If you are interested in getting involved please put your name forward to our reception team and we will see if we can fit you in.*

***As we are required to be as representative of our whole patient population as possible, we will only have limited spaces available in each age group etc**
